ARMY Y. M. C. A. COMMITTEE ISSUES A STATEMENT.

President Wilson, in a letter to John R. Mott, National Secretary for the Y. M. C. A., emphasizes the need for unanimity and a unity of support for the Association's campaign for a War Work Fund.

"The special campaign for \$35,000,000 which the Y. M. C. A. has inaugurated," writes the President, "is of vital importance to the work of increasing the contentment and efficiency of our citizen army, is fundamental in making morals the basis of all our people. I bespeak for it a unanimity and a unity of effort and of gifts to speed this patriotic and practical work forward to abundant and complete success."

The local committee has interpreted this message as a direct appeal to this district to do its share in winning the war and protecting the boys who are bearing the burden of humanity's conflict.

With the formal opening of the campaign, no stone is to be left unturned in the determined effort to secure the full quota allotted this district. In a work as important to the success of the national arms, and as vital to the preservation of the Christian manhood of the Allied countries, the local committee feels that failure to meet the requirements in funds would be little short of a community disgrace.

Indications at the moment, according to members of the committee, are most heartening. There is every sign that the people of the community have not been slow to recognize the necessity for just the work the Red Triangle is doing, and the importance of its support and extension. The committee is expecting, and is confident it will receive the most liberal support of all citizens in this community who are intelligently jealous of military success, and devoutly concerned for the material and spiritual welfare of the "boys in khaki." It is to these two ends that the Y. M. C. A. is working and means to continue working, through the patriotic support of this community and the country at large. In the view of the committee:

"The President has appealed to you. You will not fail him."

BUNCO ARTIST WHO TURNED MANSFIELD, ARRESTED

Last August, Mr. John Mansfield, formerly of Paris, now a resident of Scott county, was "flim-flammed" out of \$3,800 in Cincinnati by a smooth stranger, who had a sure winner at an Eastern track. The story in its entirety, was reprinted from Cincinnati papers in THE NEWS.

Cincinnati police and detectives in Mr. Mansfield's employ, have, after a long search, succeeded in locating the swindler. The Cincinnati Enquirer says:

"Detective Dan Mahan has obtained requisition papers to take to Gov. Cox, for the return of F. J. Owens, alias 'Red' Owens, under arrest in Jacksonville, Fla., and sought here on charge of having obtained money by false pretenses from John Mansfield, Georgetown, Ky.

"Owens, who is said to have a national reputation, is alleged to have 'framed' Mansfield for a fake bet upon a horse called High Wave at the Sinton Hotel, August 29 last.

"Mansfield was induced to put up \$3,800, and a 'friend' of Owens' was supposed to have put up \$1,200, making \$5,000, and were supposed to have won \$10,000, but Mansfield never obtained his cash of Owens after that, it is charged."

UNIFORM RANK KNIGHTS OF PYTHIANS ENTERTAIN.

The A. J. Lovely Company, Uniform Rank, Knights of Pythias, entertained their wives, sisters, sweethearts and visiting brothers at a most enjoyable social session in their Castle Hall at Third and Main streets, on Wednesday night.

Three long tables, decorated in the National colors, were used to seat seventy-five guests, who partook of a substantial repast prepared under the direction of Captain Wm. W. Dudley, who as host, did the honors most gracefully. Oyster soup, followed by refreshments of a most appetizing nature, was served to the guests. Several short talks were made by members of the order. At the conclusion of the social session Mrs. Carrie F. Stone and Mrs. Elva Woods Clancey were received into the Pythian auxiliary, the Pythian Sisterhood.

BOY; GUN; WOUND; DOCTOR!

While playing with an air gun yesterday at the home of his parents, Mr. and Mrs. Robert Frank, Robt. Frank, Jr., was painfully injured when the weapon was discharged. The bullet struck a rock, deflected and flew back, striking young Frank in the mouth, making a painful wound in his upper lip, and lacerating the gum of the upper jaw. A physician was summoned and the young man's wound given attention.

CLENDENIN LEADS THE AGENCY FORCE

Of The Northwestern Mutual Life Insurance Company For Month of October—Has Half Million "Paid-For."

The Honor Roll Card of the Northwestern Mutual Life Insurance Company for October shows that Mr. R. F. Clendenin, of Paris, Ky., Associate General Agent, leads the entire agency force of 6,000 agents in the United States, in the number of men insured for the month, this being the third time that Mr. Clendenin has led the entire agency force in the past ten months. His record for the ten months is an even half million dollars of insurance paid for.

Mr. Clendenin, who is one of the best posted and most tireless workers in the insurance field, has been highly successful in the insurance business, and his methods of getting new business have been so successful that other agents throughout the country are eager to adopt his system of campaigning.

The remarkable record attained by Mr. Clendenin is, in part, the result of a nation-wide contest for new business being waged by agents of the Northwestern for twelve months, which contest or challenge was proposed by Mr. Clendenin himself.

In a recent letter from the main office of the Northwestern Mutual Life Insurance Company, at Milwaukee, Wis., Mr. Clendenin's successes have been recognized by the head officials as follows:

Milwaukee, Wis., Nov. 7, 1917.
Mr. R. F. Clendenin,
Paris, Ky.

Dear Mr. Clendenin:
I wish to congratulate you on leading all the agents of the company last month on number of lives insured. The figures have just been telephoned me by the New York Department crediting you with 29½ lives. This is an honor of which any agent of the Company may well be proud, and I am beginning to think that the Marathon Club is very apt to have a new President next July. I am confidently looking forward to your maintaining or exceeding during the rest of the agent's year the monthly record you have been making.

Very truly yours,
M. H. O. WILLIAMS,
Ass't Supt. of Agencies.

Milwaukee, Wis., Nov. 7, 1917.
Dear Mr. Clendenin:—Just got the Marathon Club report. You're doing wonderful work. Keep it up. You will smash all records.

Yours very truly,
W. D. DALLAS,
Agency Department.

Mr. C. D. Rodman, General Agent for the Northwestern Insurance Company, in Kentucky, also sent Mr. Clendenin the following letter, commending him highly for his great showing and predicting success to Mr. Clendenin in the great contest now being waged by the Northwestern Agents throughout the United States:

Louisville, Ky., Nov. 12, 1917.
Mr. R. F. Clendenin,
Paris, Ky.

Dear Sir:—There is no question but what you will be president of the Marathon Club, if you maintain your present pace. It would certainly be gratifying to every man connected with this agency for Kentucky to have the honor or having one of its organization to be the leader in the United States for the entire year.

I know you will render the service to the policy-holders, and if the policy-holders will co-operate with you, the honor seems to be assured.

Yours very truly,
J. D. RODMAN,
General Agent.

ANOTHER "SUSPECT" ARRESTED

A young man giving his name as Herbert Ames, residence anywhere, was placed under arrest by Paris police Tuesday night at Mrs. S. M. Turpin's restaurant, on Tenth street, on suspicion of being the slayer of Detective Wegener, in Cincinnati several days ago.

Mrs. Turpin noted a resemblance of the man to the published descriptions of the slayer, and called the police. Ames wore a blue serge suit, light checked cap, and carried a new 32-caliber revolver. He had in his pocket a match box with the name of The Majestic Pool-room, Cincinnati, O., on it. His arms were tattooed in different designs.

Ames claimed to have just been released from the Frankfort penitentiary, and denied all knowledge of robbery in which Wegener lost his life or of the actual killing. He was placed in jail here and taken to Cincinnati, Wednesday morning, where he was subjected to a grueling examination.

The examination proved that Ames was not the man wanted nor could anything be produced in the way of evidence to connect him with the affair in any way.

The Cincinnati Enquirer disposed of Ames in four little lines, as follows:

"A man brought here from Paris, Ky., as a suspect in the Wegener case is not the man sought, police announce."

OPENING OF THE LOCAL TOBACCO MARKET.

The first sales of the present season on the local tobacco market will be held at the Bourbon Tobacco Warehouse, on South Main street, on Tuesday morning, December 4, beginning at nine o'clock. The large display advertisement of this warehouse appears in this issue of THE NEWS.

So, when you see a big wagon-load of good tobacco coming into Paris next month, you will be looking at something representing at least \$1,000 in real money. A number of sales have been made in the county at thirty cents, which is pretty good this early in the season before the market opens.

For three seasons the Paris market has been one of the best in Kentucky, and has been the means of putting a considerable sum of money in circulation in Paris and Bourbon county. It is confidently predicted this season will be equally as good, as high prices are likely to be realized by the growers.

Several crops of the weed have already been bought up. Mr. Charles S. Ball sold his crop of 23,000 pounds to Abnee & Mussion, of Paris, for \$23 per hundred pounds. Mr. J. W. Larkin, of near Paris, sold to the same parties his crop of 5,000 pounds of tobacco for \$19 per hundred pounds.

GOVERNOR GOES HUNTING

Governor Augustus Owsley Stanley was an honored guest of Bourbon county Monday, though the fact did not become known generally until the next day.

Gov. Stanley came to Paris, Monday, and was met by Mr. Thos. Henry Clay, Jr. The gentlemen donned their hunting clothes and motored to Mr. Clay's big farm near Thatcher's Mill, where they spent the day in a sportsmanlike manner. Gov. Stanley proved his marksmanship on wild ducks, and succeeding in bringing down a large number. He and Mr. Clay bagged about one hundred ducks, and both returned happy and hungry.

DISTRICT FEDERATION OF WOMEN CLUBS.

The District Federation of Women's Clubs, which includes Bourbon county, will meet in Winchester in February, and arrangements are being made to make the convention a memorable one. Representative women from various counties will be in attendance, and a good program will be rendered.

SALE OF AUTO TIRE CAUSES ARREST OF SUSPECT.

The sale of an extra auto tire for \$5, with which he intended to purchase a supply of gasoline, caused the arrest here of a young man giving his name as Samuel H. Broughton, who subsequently claimed to be Lieut. Robt. Jones, of North Middletown. Broughton also gave the name of Samuel Leggett.

When placed under arrest Broughton, alias Jones, alias Leggett, wore army shoes, which led to the suspicion that he was a deserter. Telegraphic communication was established with Camp Shelby at Hattiesburg, Miss., eliciting the reply that Broughton was a deserter, and ordering him delivered to the commanding officer at Ft. Thomas, Ky.

Broughton, under vigorous examination, confessed to stealing the auto from Lexington, in which he intended to go to Maysville. The machine was restored to its owner, Mr. Hugh Browning, in Lexington, while Broughton was sent under guard to the army post at Ft. Thomas, where he will be held for the Camp Shelby officers.

Broughton formerly resided in Paris, making his home with his step-father, Mr. James Leggett, a brother of Mr. Luther Leggett, of county. While a resident of Paris young Broughton was in the employ of Mr. E. M. Wheeler, as driver of his delivery wagon.

ASSISTANCE NEEDED.

A call has been issued by the Red Cross Society for a large number of sweaters and other articles. The ladies of Paris have as a whole responded nobly to the call for help at the local Red Cross sewing rooms in the basement of the court house. There are several ladies, though, who have not as yet made their appearance at the sewing rooms, and they would be heartily welcomed at any time.

The local Chapter now has a sufficient amount of material on hand, and anyone desiring to work need not hesitate a moment in the belief that the Chapter will not be able to supply them with the necessary material.

Your presence would be appreciated very much at the Red Cross sewing rooms. There is nothing that would be more appreciated by the boys now in service than the nice warm garments that the Red Cross ladies are busily engaged in making for them. And those surgical bandages and hospital supplies may be needed, no one knows how soon!

CLARK COUNTY MAN PROVES PROFESSIONAL HORSE THIEF.

Ernest Curley, alias John Smith, who recently stole a valuable horse from a Paris liveryman, which he sold to former policeman Ballard, at Winchester, proves, upon investigation, to be a professional in that line.

According to the story of United States Marshal Jno. Elliott, Curley represented himself as a United States Marshal, and operated through several counties under pretense of buying horses for the Government service. He pretended to be operating under the sanction of U. S. Marshal Elliott, his plan being to pick out a fine bunch of horses, stating that he would purchase them as soon as Mr. Elliott arrived with the money. Several days later he went to the owners of the horses and explained to them that it was necessary for him to leave at once, and endeavored to get the horses upon his promise that Mr. Elliott, who is well known in Estill county, would soon arrive and make the payment.

At this point several persons became suspicious, and as Curley's arrest was about to come about he disappeared with the horse belonging to a Mr. Kenney, which he took under a pretext.

ARMY Y. M. C. A. WEEK AND WEEK OF PRAYER.

The week beginning last Sunday, which has been chosen by the War Work Council of the Young Men's Christian Association for a nationwide campaign to raise \$35,000,000 for work among the soldiers and sailors of the United States and her allies, is also the week that has been observed for many years by the association as a week of prayer for the young men of the world.

The general secretary, the Rev. Dr. John R. Mott, has asked that the season be marked by co-operation in prayer from all the churches, and to that end he has issued an appeal to the ministers of all the evangelical denominations.

The topics for the week of prayer are grouped under the general head, "United Search for New Discoveries of the Resources and Guidance of God." The topics for the remainder of this week are as follows: Friday, for "Young Men's and Young Women's Christian Associations and Kindred Organization;" Saturday, for "The Spirit of Christ in All Fellowships."

LANDS GOVERNMENT ORDER FOR ARMY SHOES.

It remained for a Paris man to realize the nearness of the war, by being awarded a Government contract.

Mr. B. Friedman, of the Cincinnati Store, and the shoe firm of Friedman & Ashurst yesterday received a letter from Commandant H. N. Royden, of the Kentucky State University, at Lexington, advising that he (Friedman) had been awarded the Government contract for supplying army shoes to equip the Cadet battalion in training at the University.

The contract, which was secured through Mr. Friedman's son, Mr. Eli B. Friedman, of Paris, who is a student at the State University, calls for furnishing between 700 and 800 pairs of army shoes of a standard make and sizes, to be delivered at an early date, and to be paid for at a specified agreed price upon delivery of the goods to the Commandant at the University. The letter authorizes Mr. Friedman and assistants to start immediately taking measurements for the shoes.

The contract was secured in competition with a number of Lexington, Louisville and Frankfort dealers, and is quite a compliment to Mr. Friedman. The contract will total several thousand dollars, and furnish employment to a large number of employees at the factory. The shoes will be delivered in lots as ordered by Commandant Royden.

MORGAN BROUGHT HERE.

Patrolman Wm. Tolle, of Maysville, brought Grover Morgan to Paris, Tuesday afternoon, and left him in the custody of his former landlord, Jailer Joe Farris.

Morgan, who was in the Paris jail several weeks ago, on a charge of stealing \$800 worth of diamonds, which he pawned in Lexington for \$1, made his escape, but was captured in Maysville, where he was held on a double charge, being wanted by the Federal authorities.

Upon learning of Morgan's character, the army authorities decided they would let the civil authorities take care of him, so the charge against him of being a deserter was fled away.

Morgan was arrested in Maysville for stealing ten dollars and some small change from the trousers pocket of a man at whose home he had been given lodging for the night. He confessed guilty to the charge, but the Maysville authorities did not prosecute him, deciding that Paris had the first claim.

BOLWING TEAMS PUT UP THREE GOOD GAMES.

The first match game played by a Paris team with a team outside of the City League was played Friday night at the local alleys, with the Lexington team, resulting in a victory for the Paris five by a majority of 264 pins, which, in the vernacular of the knights of the pins, is "going some." BOURBON CIRCUIT COURT.

The time of the Court was taken up Wednesday in the trial of the case of the Commonwealth vs. Chas. Henderson, colored, charged with the murder of Charles Johnson, colored, near Centerville last June. The testimony presented to the jury proved a case of self-defense for Henderson, resulting in a vote of acquittal.

In the case of the Commonwealth vs. Everett Rector, white, of Ruddles Mills, charged with cutting and wounding, the jury failed to agree, and was discharged. The case was accordingly continued to the next term.

Dangerous Winter Disease.

Bronchitis is a winter disease which is said to be responsible for one-tenth to one-seventh of all illness.

It causes an inflammation of the bronchial tubes with the production of mucus or phlegm. The bronchi are the tubes which lead from the trachea into the lungs. The first part of the air tube is the nose. This leads into the back of the mouth, called the pharynx. The next part of the tube, commonly called the windpipe, which conducts air from the area in which the vocal cords are, through the neck and into the chest at the root of the lungs. Here the trachea divides into two bronchi, one running to each lung.

When this passage becomes inflamed and produces mucus it irritates the throat and causes the patient to cough in order to get rid of it. Accompanying the cough may be fever, loss of appetite and diarrhoea. The infection responsible for these disorders is caused by a germ. In more than 50 per cent. of the cases of bronchitis the germ responsible is the same germ that causes common colds.

Other cases of bronchitis are due to the same germ that causes pneumonia.

To prevent acute cases of bronchitis the first rule is to keep away from all persons known to be suffering with the disease.

Avoid hot, close rooms where the air is known to be stale and dirty. If strong enough to stand it take a cold sponge or a cold air bath every day throughout the winter.

If you do catch the disease it can be cured quickly if the victim goes to bed and stays there quietly for a day or two at the first signs of the attack.

The Matter of Sleep.

It is surprising what little sleep men can get on with; then, not a few men we think they are getting only an hour or two of sleep a night, are really getting much more; but because they awake or are awakened five or six times during the night they think they sleep very little in between. Nothing is so fallacious as our estimate of how long we have been asleep. Usually when we awake feeling so tired that we hope it is before midnight, it is probably nearly time to get up. Only too often, indeed, is it after the time.

Feeling rested is very largely a matter of how much our wills are awakened, how firmly we have got hold of ourselves, and then how interesting is the work ahead of us, and how anxious we are to get up and get at it, while feeling fatigued is very much a matter of not wanting to get up, because the work of complications, and not promising at best, and has, perhaps, been put off for three or four days because we do not care to get at it.

Running a Paper.

Running a newspaper is just like running a hotel, only different. When a man goes into a hotel and finds something on the table which does not suit him, he does not raise his hand with the landlord and tell him to stop his old hotel. Well hardly.

He sets that dish to one side and wades into the many dishes that suit him.

It is different with some newspaper readers. They find an article occasionally that does not suit them exactly and without stopping to think it may please hundreds of other readers, make a grandstand play and tell the editor how the paper should be run and what should be put into it. But such people are becoming fewer every year.

Necessity of Fresh Air.

There is nothing like the pure fresh air and sunlight to give vigor to body and mind. Many persons make a great mistake in remaining indoors and broiling themselves to death all winter beside the red-hot kitchen stove. They are mortally afraid of catching a cold. The parents imagine that it is their duty to keep the children in the house continuously as soon as frost sears the leaves, and to see that the doors and windows are closed, and next to air tight, day and night. The parents want healthy and robust children; but they employ entirely the wrong method.

Let the children and everybody else, have all the life-giving ozone of the out-door air possible. The country people have this inestimable advantage over city people, and they ought to be wise enough to make the best use of it. The fresh air is just as necessary in winter as it is in summer.

Do You Like Our Town?

Do you like our town? Do you have any concern for its future? Would you like to see it grow, prosper and extend its trade and influence? If you do, then ask yourself these questions: "Do you help support and maintain its institutions? Do I encourage every movement looking to the up-building of the town? Do I speak a good word for the town and the people at every opportunity? Do I lend assistance to its industries? Do I patronize them? Do I fully understand the duties devolving upon me as a citizen?" If you cannot answer these questions in the affirmative then you are not only a stumbling block but a detriment to any community.

THINK OF 5,200 MILES OF POSTAGE STAMPS.

The New York Postoffice has called for the largest supply of postage stamps in the history of the department. It has ordered 310,202,320 stamps, valued at \$8,193,705.20, which, if placed end to end, would make a strip 5,200 miles long. The stamps will have to be wrapped in 1,800 packages, which, if placed in a single stack, would be four times as high as the Washington Monument.

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Enhaut, Pa.—"I was all run down and weak inwardly. I had female troubles and nervous feelings and my head bothered me. I would often have crying spells and feel as if I was not safe. If I heard anyone coming I would run and lock the door so they would not see me. I tried several doctors and they did not help me so I said to my mother 'I guess I will have to die as there is no help for me.' She got me one of your little books and my husband said I should try one bottle. I stopped the doctor's medicine and took Lydia E. Pinkham's Vegetable Compound. It soon made a change in me and now I am strong and do all my work."—Mrs. AUGUSTUS BAUGHMAN, Box 86, Enhaut, Pa.

THE FATTEST FISH.

When the little fish known to science as the eulachon is in good health and condition, it is the fattest fish in the world. Although oily, it is digestible and of excellent flavor, resembling the common smelt. In fact, it is popularly known as the "Columbia River smelt." The eulachon is a native of the Pacific and runs up the Columbia River in enormous numbers during the annual spawning season. Each run of fish spawns only once, after which all the fish die. The United States Bureau of Fisheries believes the eulachon should be much more widely used for food than it is at present.

AN OLD MAN'S STOMACH.

As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain pepsin, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels. (nov-addv)

Blaming the railroads for everything under the sun that is objectionable is another popular indoor sport.

Once again events have demonstrated that it doesn't pay to be a pacifist in Kentucky.

CERTAIN CURE FOR CROUP

Mrs. Rose Middleton, of Greenville, Ill., has had experience in the treatment of this disease. She says, "When my children were small my son had croup frequently. Chamberlain's Cough Remedy always broke up these attacks immediately, and I was never without it in the house. I have taken it myself for coughs and colds with good results. (nov-addv)

Virgin Land For Sale!

150 acres of Laurel County virgin land that would make an ideal chicken ranch. About 75 acres is high, flat land, and balance on a branch between two high bluffs. This branch land has enough tie and small timber on it to pay for it. Would be an ideal place for an orchard, being protected from frost to a great extent by these bluffs. All kinds of fruits would do well. Some of this land would produce fair corn and tobacco, and all kinds of vegetables.

DECEMBER AMERICAN MAGAZINE.

Dr. Frank Crane, the famous editorial writer, has written for the December American Magazine an article called "If I Were Twenty-One the Things I Would Do." Every young man in America should read it. Holworthy Hall begins a series of short stories with "Straight From Headquarters." "Getting Next to People" will help you to do so; "The Book That Helped Me Most" is full of good things; and "Russett and Gold," a love story by William Dudley Pelley, will hold you from first to last.

Louis K. Liggett, the famous drug store man, has written an article filled with good suggestions for business men; Marguerite Clark tells about her experience on the stage and in the movies; and "Detroit" is the second city to be dealt with in "The Flavor of the Cities." H. C. Witwer has a funny story in this number, and with the other articles and stories, an excellent number is completed.

SOLDIER MAKES EFFORT TO HAVE LEG LENGTHENED.

Edgar Marcum, 21 years old, a soldier of Catlettsburg, was operated on to lengthen the right leg four inches. The limb was crushed last April when Marcum was hurled under a train at Fort Bliss, Tex. Surgeons cut out all of the diseased tissue, and, chiseling a groove in the bone on either side of the fracture, fitted a section of the tibia, or shinbone, cut from the patient's leg, into it. The surgeons then drilled holes through the thigh and tibia, fastening them together with pins made of a piece of the transplanted bone. They then bound the parts in kangaroo tendon. Marcum is reported to be doing well.

THIS KENTUCKY WOMAN COMES OUT FOR TANLAC

SAYS IT HELPED HER BEFORE SHE HAD TAKEN MORE THAN HALF A BOTTLE.

Mrs. O. S. Herman, 127 West Chestnut Street, Louisville, said she had been bothered with her stomach for more than a year before she started taking Tanlac.

"But I hadn't taken more than half a bottle of Tanlac until I saw that I was getting better," Mrs. Herman said.

"It used to be that everything I ate just felt like a heavy weight in my stomach. I bloated badly after eating."

"I was nervous, too, and didn't sleep very well. My rest was broken by bad dreams and I'd feel tired when I got up in the mornings."

"I read so much about Tanlac that finally I decided to try it. As I said, it helped me before I had taken more than half a bottle. I kept on, though, until I had taken three bottles and now I don't have a bit of trouble with my stomach like I used to."

"I can sleep soundly all night now, too, and don't feel tired in mornings like I did before."

"Tanalac proved to be all right in my case, and I recommend it."

Tanalac is a valuable tonic and it has been prepared especially to build up run down systems and improve the health of sick men and women. Thousands have been helped by Tanlac. Why not you? Get Tanlac today at G. S. Varden & Son's. (adv)

**Don't "Jiggle" the Hook**

There are two ways to recall the telephone operator when you are making a telephone call.

The wrong way is to "jiggle" the hook so rapidly that the tiny electric lamp that signals the operator in the Central Office does not remain lighted long enough to attract the operator's attention.

The right way is to move the receiver hook up and down *slowly*, so that the light will glow and the operator will know that you are calling her.

The *right* way saves your time and patience. It adds to the speed with which the operator can serve you. It helps improve the quality of your telephone service generally.

Always move the receiver hook up and down *SLOWLY* to recall the operator.

ALL DRAFTED MEN WILL BE IN CAMP SOON.

Mobilization orders for the remainder of the National Army men included in the first increment, held up pending completion of the camps and the receipts of a full supply of overcoats, will be issued within the next week or two at least. Secretary Baker said that as thousands of overcoats are being delivered daily, the supply soon will be sufficient for the men yet to be called.

With one or two exceptions, the cantonments are nearly complete, and as the plans call for more buildings than are necessary to house the number of men drafted as yet, there will be plenty of room even before all barracks are finished.

The men at the northern cantonments were fully supplied with overcoats immediately on their arrival. At some of the southern cantonments this was not considered necessary, because of milder weather. Since winter has set in, however, full clothing equipment for the men will be provided before they are mobilized.

Regulations for the second draft have been put into effect by the President and work of preparing for the call which is anticipated in February has begun. The scheme provides for the division into five classes in order of eligibility all the remaining 9,000,000 men who registered. To each of these registrants a list of questions will be submitted giving all information as to his fitness, and these will be classified when returned to the local boards. It is estimated that it will require three months to complete the classification. President Wilson has issued a foreword to the new draft regulations and Provost Marshal General Crowder a supplemental explanatory statement.

The members of the Bourbon County Board of Exemption find that they have some job on their hands to complete the information desired by the authorities in Washington, and the work will take them all next week, even with outside assistance. Every registration card in the county will have to be gone over very carefully, and information from all the cards put on another card for file in the office of the Provost Marshal General at Washington. When the local board shall have completed its work there will be a complete record of every registered man in the Washington office.

HUNTING SEASON OPENED YESTERDAY; HUNTERS BUSY.

Hunters were very busy yesterday arranging hunting trips to various parts of the county, and to other counties, in pursuit of quail and rabbits. An unusually large number of hunting licenses were issued this week by County Clerk Paton.

Reports from all sections of the county were there has been shelter for the birds are to the effect that quail are plentiful, owing to the strict protective measures adopted and enforced by the game commission. There are also many ducks, rabbits and squirrels. Bourbon county sportsmen have generally obeyed the strict letter of the law in the game and fish conservation, and the game wardens have been unable to report any violations.

A number of Lexington and Paris sportsmen spent the day in Nicholas county hunting yesterday, reporting game plentiful and the shooting good.

THINGS TO WORRY ABOUT.

It is strange there should be any scarcity of meat in and around Paris, and yet not so strange, either, when the facts are considered. We have seen enough fat cattle alone leave Paris in one day for the city markets, which, if butchered here, would supply the people of Paris and Bourbon county for at least twelve months. Nearly every day these choice lots are shipped away to other places.

FAMILY HURT IN ACCIDENT.

Mr. R. A. ("Doc") Hill, his wife and son, all of near Paris, received serious injuries last Sunday night when returning home from church at Ruddled Mills, when their horse took fright at a burning log or stump lying at the side of the road.

The boy was driving when the horse scared and jumped across the road into a thorn bush. The boy jumped out of the buggy, taking the lines with him, and received minor bruises. It is thought that Mr. Hill was either thrown out or in attempting to regain the lines fell out of the buggy. Mrs. Hill remained in the vehicle, the frightened horse all the time running toward a bridge which is approached by a sharp turn in the road. The buggy struck an abutment of the bridge, throwing Mrs. Hill out.

She appeared not to be seriously hurt at the time, but on Monday became unconscious. She was removed from her home to the Masse Memorial Hospital, in this city, where an operation performed Monday night disclosed the presence of a blood clot on the brain. She had not regained consciousness yesterday. Mr. Hill was badly hurt about the head and body.

THE Y. M. C. A. DRIVE.

The city and county teams who were appointed at the recently-held mass meeting in Paris for the purpose of soliciting funds in the big drive for Bourbon's allotment of \$7,500 in the army Y. M. C. A. campaign, are making satisfactory progress, and up to Wednesday night had secured \$4,300.

Two hundred boys have been called upon in the county to earn ten dollars each to be contributed to the fund for this campaign. They have been given their choice as to the means to be used, and it is safe to say that they will come up smiling, and with their money in their hands, hands up, and none of it sticking to them.

Bourbon county has done herself proud in the work for the Red Cross and the Liberty Loan work, and she must not stop when this campaign is on for the Army Y. M. C. A. work. The war work of this organization is one of the most important undertakings of the war for the relief and benefit of the American soldiers who are to serve in conjunction with the Allied armistice in waging a successful battle against the German militarism. A small donation from everybody in the county who is able to give will soon raise the desired amount and nobody will miss it. An opportunity will be presented for you to donate and it is sincerely hoped that you will do so.

The soliciting committees are made up of some of the best citizens of Bourbon county, men who are giving their time to the work without compensation, and doing their bit in this work. Don't expect them to seek you out a second time and beg for a contribution, but toe the mark manfully, and come up with your contribution.

Let's have the pleasure of showing Woodford county people that old Bourbon county can do a little in the way of oversubscribing when the people get their working harness on. All together!

THANKSGIVING TURKEY MARKET CLOSED YESTERDAY

The Thanksgiving turkey market closed in Paris yesterday at the pens of C. S. Brent & Bro., after a very successful season which began on Nov. 8, when the first deliveries were made.

The market was an exceptionally good one, and all shipments were promptly taken, notwithstanding the fact that the report of Food Commissioner Hoover showed an enormous supply of the fowls left over in cold storage from last year.

Up to and including Saturday the Thanksgiving market report shows about 60,000 pounds of turkeys handled, for which the market prices ranged at 22½ cents taken at the homes of the sellers, and 24 cents delivered at the pens. The poultry was all shipped to the Boston and New England markets. The turkey crop this season was much better than expected, and the quality about up to the yearly average. The delivery of fowls on the Paris market for one week totalled \$13,800, that of Millersburg and other markets operated by C. S. Brent & Bro. not being included in that amount. The opening date for the Christmas market will be announced in THE NEWS.

FARM CONDITIONS.

Ideal autumn weather has afforded farmers opportunities for getting ready for winter work. Corn shucking and tobacco stripping have claimed the larger part of their labors, as many of them, owing to the scarcity of help, have been forced to "make a hand" of themselves. Tuesday, Dec. 4, has been fixed as the date for opening the Paris tobacco market, and the event is being anticipated with much interest, as the sales will put a large amount of money in circulation. Top prices are expected to be realized on the local market.

Good hogs are scarce and prices higher than ever known before. New corn sells for \$10 a barrel, and old corn at \$5 to \$6 a barrel, making swine feeding a costly job.

Potatoes are retailing at fifty cents per peck in small quantities, and at \$1.50 per barrel in large quantities for winter storage.

GAME WARDEN VISITS CLARK

Mr. Douglas Thomas, Jr., of Paris, District Game Warden, was in Winchester Tuesday afternoon, after having made a trip over Clark county in an effort to ascertain if there had been any violations of the game laws there. Mr. Thomas reported his inability to find any violations, but called attention to the fact that the game laws would be in force until yesterday.

He also called attention to the necessity of hunters having their hunting license before taking to the fields to hunt quail and rabbits, unless the hunting was confined to one's own property, when in such cases a license is unnecessary. According to the law hunters must have in their possession the license which permit them to hunt if they seek game on any other premises than their own.

"THE MAN FROM PAINTED POST"

A special treat is in store for the many admirers of Douglas Fairbanks in his newest Artcraft picture, "The Man From Painted Post," coming to the Alamo and the Paris Grand next Monday afternoon and night. The script for this photoplay was written by Douglas himself and is based on Jackson Gregory's recent magazine story, "Silver Slippers." In the role of Fancy Jim Sherwood, the immaculate dude who wipes out a powerful gang of cattle rustlers, the smiling star offers a characterization that will meet with popular favor among patrons of clean pictures.

Bucking bronchoes, crack-riding, trick roping and bulldogging steers are among the interesting features offered by the comedy drama of the true west. Participating in these scenes are the champions of the world in their respective accomplishments, including Sam Bronwell, champion bucking broncho rider; John Judd, fancy dope artist; Tommy Grimes, H. A. Strickland and other winners at the Rodeo Competition held in Cheyenne, Wyo. It was at this meet that Douglas Fairbanks signed up the champions for "The Man From Painted Post," and each individual gives a good account for himself in this picture.

Instead of staging this production in California, where his studio is located, Douglas Fairbanks took his entire company in a special train to Laramie, Wyo., where, thirty miles from the railroad station, he leased the Riverside Ranch, covering 160,000 acres, containing 30,000 head of cattle.

"The Man From Painted Post" is unlike any previous Fairbanks vehicle in that it affords him an opportunity to display actual histrionic talent in addition to his own typical style of acting. In contrast to the many humorous situations of the Fairbanks variety are scenes of deep dramatic interest in which the versatile Douglas proves his ability as an actor. Supporting the star is an excellent cast, including Eileen Percy, Frank Campeau, Frank Clark, Herbert Standing, William Lowry, Rhea Haines, Charles Stevens and Monte Blue. The picture was staged under the direction of Joseph Henaberry, assisted by Millard Webb.

PERUNA Best All Around Medicine Ever Made

I Hope You Will Publish This Letter

Mr. W. H. Edgar, 49 Cooper St., Atlanta, Georgia, writes:

"I suffered for fifteen years with rheumatic symptoms. Peruna cured me and I think it is the best all around medicine ever made. I hope you will publish this letter for the benefit of others who suffer."

Those who object to liquid medicines can procure Peruna Tablets.

BAKERS MUST TAKE OUT LICENSES AFTER DEC. 10.

All the bakeries in the United States, including those of hotels, restaurants and clubs, excepting only small neighborhood bakers of bread who use less than ten barrels of flour monthly, are required to come under Federal license after December 10 by a proclamation issued by the President.

Under its regulations the Food Administration will standardize bread-making, and Administrator Hoover expects to force prices for pound loaves downward, probably to seven or eight cents. Fancy breads will be eliminated. Loaves are to be one pound, one and a half pounds, two pounds and four pounds.

DECEMBER WOMAN'S HOME COMPANION.

Sophie Kerr begins "The Golden Block," a new serial, in the December Woman's Home Companion. She will be remembered as the author of "The Blue Envelope" and other stories. Maude Radford Warren writes about "The Women Over There" and what they are doing; Corrine Lowe tells about the experiences of a fashionable dressmaker; and Mary Heaton Vorse has a short article on "How Will John Stand It?" which deals with economy of food.

Other short stories by Sylvia Chatfield Bates, Leslie Davis and Don M. Parker are in this number in addition to the "Soldiers All" and Treasure and Trinket Fund departments. The fashion department, conducted by Grace Margaret Gould, the cooking, picture, and "younger reader" sections are all up to the minute and bristling with helpful and entertaining suggestions.

EARLY LAMBS SHOW BIG PROFITS

Farm and Fireside says: "Raising early lambs is a profitable business on any Eastern farm. The lambs are finished and marketed early and the ewes are sheared during April. At that season the fleece is in first-class condition and will command a good price in the wool market. The wool helps to pay for the cost of feed. And the manure is a rich fertilizer that is worth all the straw and roughage used to make it."

"I consider it costs me about two cents a day to feed a sheep, because I raise all the rations and roughage on the farm. Under my system of raising sheep, I buy the ewes at the stockyard in July, and the same animals are conditioned for market and sold the following March or April. The cost of maintenance for about 275 days is \$6. This year the wool averaged \$2 an animal. The manure is a profit. Each lamb brought \$10. The fattened ewes always average a profit of \$7 a ewe for the 275 days on the farm, and the manure."

GIRLS! HAVE A MASS OF BEAUTIFUL HAIR. SOFT, GLOSSY, WAVY

A Small Bottle Destroys Dandruff and Doubles Beauty of Your Hair.

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that all you surely can have beautiful hair and lots of it if you will just try a little Danderine.

WAR TALKS

By UNCLE DAN

Number Five

Jimmie and a German Boy Clash—Must Do Three Things to Save Country.

It was a warm evening so Uncle Dan went out to a lawn seat under the spreading branches of the great tree that suggested the farm's name of Oak Hill. Billie and Jimmie had been laying for him, so Uncle Dan was captured by the boys on short order.

"Say, Uncle Dan," Billie began. "We had a red-hot argument at school yesterday with Carl Newman. Carl said that German schools were miles ahead of our schools and that no one could come up to the educated German. Well, Jimmie got hot under the collar and handed it back to him good and plenty. Jimmie said if their education taught them to torpedo Lusitanias, sink hospital ships, murder hundreds of women and children, make slaves of the Belgians, poison wells, destroy fruit trees and commit all sorts of crimes, then we did not want that kind of education here. What do you think about it, Uncle Dan? I told Jimmie you spent a lot of time in Europe and knew all about schools, so give us your opinion."

"Well," replied Uncle Dan, deliberately, "the German schools are very thorough; they furnish exceedingly valuable and practical instruction. The industrial training given there is probably the best to be found. The schools as a whole, however, in my opinion, appeal to the head only, and never to the heart. The aim and trend is to make the individual blindly submissive to the Prussian plan of world dominion; they teach that it is the destiny of Germany to rule the world, and that to the glory and advance of Germany, in this plan, all things must give way; that the Kaiser as head of the state, can do no wrong if he carries forward the plan of world control. Some of the greatest teachers and preachers even defend and justify her heartless crushing of Belgians and the many other atrocious crimes she has committed in this war. Thank God, our American education reaches both the head and the heart. It is an education with a soul, and we must maintain the high ideals we have fixed. In a word, in Germany, the people are taught that they exist for the government, while here the government exists to serve the people."

"Just wait a minute," interrupted Billie. "Say that over again slowly, so I can write it down."

Uncle Dan, smilingly, complied. Billie exclaimed: "Now, we will hand that out for Carl to crack. Carl, you know," continued Billie, "has a very smart father who keeps him posted on the German arguments. Carl said our government was only an experiment anyway; that it might not last twenty years, and that it might burst up any old time. Jimmie asked him if Germany was so mighty good, why they did not go back there to live."

"Our government will go on forever, won't it, Uncle Dan?" "Now," said Uncle Dan, "you are raising a big question, and one that has troubled me for years. Our government is still in the experimental stage; in fact, it is the greatest experiment ever undertaken, and if popular government is to be successful, a few things must be done, otherwise, to paraphrase the great Lincoln, the government of the people, by the people and for the people, will perish. It is my firm conviction," said Uncle Dan, in a very impressive manner, "that if our country is to go on, as we hope and pray, we must very quickly do at least three things, and I will name them in the order of importance as it appears to me:

"First, adopt compulsory universal military training of all young men physically fit before they reach the age of twenty years."

"Next, require that every foreigner who comes here to live must, within a reasonable time, say a year, declare his intention of becoming an American citizen and take the necessary steps to do so, thereby, from that moment, assuming all the obligations of citizenship of our country, and that means he must defend our flag upon equal terms with our native born, and if he is not willing to do this, he should be sent back from whence he came."

"That's the stuff," exclaimed Billie. "And, finally, enact such legislation as will make voting compulsory. Popular government is based upon the participation of all and the rule of the majority, and democracy cannot continue and be successful unless we live up to the spirit of the institution."

"The first step, however, is the passing of the Chamberlain bill for universal military training. If you will get the leading citizen, and especially the editor of your paper, to write personal letters to your congressman and both senators, urging their support, it will help enormously."

"I see by the morning papers," said Uncle Dan, "that the Rotary clubs of the entire country, the liveliest, most efficient organization to be found, have unanimously decided to get back of the Chamberlain bill and give it loyal and enthusiastic support. They will work with the Universal Military Training league to accomplish this important piece of legislation, which will do more than anything else to make us a real nation with a common viewpoint, bring us back to sane living, and teach us the patriotism of service."

THE Beautiful - Gulf - Coast!

Pass Christian, Newport.

Pass Christian is the Newport of the Gulf Coast, and one of the most fashionable and popular resorts in the South. The town, of about 2,000 permanent population, is very generally engaged in entertaining and serving the large number who come here, summer and winter, for recreation. Society congregates at "The Pass" at all seasons—the summer guests coming from neighboring Southern cities—the winter throng from all parts of the North.

Pass Christian was named for a Spanish explorer who discovered the deep-water pass that lies close to the main shore. It is an old and much honored settlement, having been a popular resort from far back in antiquity. Tradition associates it with the gayest of Southern society and with men and women famous in the high social circles of this and foreign lands; President Wilson is one of Pass Christian's recent notable guests. Its location is one of the choicest on the Coast. The low-lying shore slopes upward to wooded hills, where pines and splendid oaks, magnolias, palmettoes and a variety of tropic vegetation grow and flourish luxuriantly, while fine old homes, elegant modern villas and charming bungalows line the avenues and drive along the shore. Life is ever attractive at The Pass; there is boating, motoring, golf, tennis and fishing by day and dancing and all other indoor festivities for the evening. Pass Christian boasts of one of the finest golf courses anywhere in the South.

CHRISTMAS GIFTS FOR EVERY SOLDIER AT CAMP TAYLOR.

Santa Claus is going to "do his bit." He is formerly pledged to help win the war by distributing good cheer and gifts on Christmas eve among the soldiers from Kentucky, Indiana and Illinois stationed at Camp Zachary Taylor in Louisville. Official cognizance of his enlistment has been taken by Maj. Gen. Harry C. Hale, commanding officer of the big camp at the falls of the Ohio River.

The Courier-Journal, of which Henry Watterson is editor, has volunteered to act as Santa Claus in khaki to that portion of the National Army located at the Louisville cantonment and has given pledge that every officer and private, numbering over 30,000 men, will receive a gift. Gen. Hale has accepted the generous offer and promised co-operation in making the Christmas celebration a noteworthy and unusual event in military history.

THE BOURBON NEWS has united with the Courier-Journal and the other leading metropolitan and rural newspapers of the three States in the movement and will work for a splendid representation of this community in the effort to remind the gallant sons of the three States that the folk "back home" are thinking of them.

The plans provide for a mammoth Christmas tree in front of each regimental headquarters at Camp Zachary Taylor on Christmas eve. Friends and relatives of men stationed at the camp are urged to send their gifts by mail or express in care of "Santa Claus, 84th Division, Courier-Journal, Louisville, Ky." Packages should be forwarded early. Extreme care must be taken to write plainly the name, company and regiment of the man for whom the gift is intended. An immense wareroom in a fireproof building has been engaged for the storage of gifts prior to placing them on the trees.

If any officer or private has received no gift just before Christmas, presents will be supplied for him by this modern Santa Claus of the quill and shears. A fund for this purpose is now being raised by the Courier-Journal and contributions to it should be addressed in same manner as though other gifts are sent.

On the afternoon before Christmas each regimental tree will be decorated and wired for electric illumination. The gifts will be hung in place under the joint supervision of the newspaper Santa Claus and the officers of the 84th Division. Shortly after dusk every man in each regiment will assemble before his regimental tree. The lights will be turned on, the bands will play and every soldier at Camp Zachary Taylor will step forward as his name is called out to find that Santa Claus has not forgotten him.

THIS WILL BE GOOD NEWS FOR THE KIDS.

There will be no shortage of toys to fill the stockings of American children this Christmas, despite the almost complete absence of the familiar "made in Germany" kind. An announcement by the Department of Commerce said American manufacturers had developed an industry which not merely could supply home demands, but export a surplus—something never before known in the American toy trade.

GO AFTER THEM!

Enemy propagandists now at work in the United States soon will be rounded up and the spy menace largely eliminated, Assistant Attorney General Fitts declared in an address in Washington. Special significance was attached to the statement because of the pending plan of the President to require all alien enemies to register.

Be Lenient in Judgment.

This Big Aluminum Cereal Cooker

We make this One-Week Offer to Housewives here who have not had this Cooker. The cost of Aluminum has doubled. Cooker prices have enormously advanced. But, in fairness to those who missed it last year, we repeat this Dollar Offer

Cookers Supplied To a Million Homes

We have supplied Quaker Cookers to a million homes at very little prices. But the cost has advanced until our offer is almost impossible.

But grocers tell us that many housewives missed our former offer. They are using Quaker Oats and Pettijohn's, and they want this Aluminum Cooker. In fairness, they should have it.

So we renew this offer for next week only. It applies only to housewives whom we have not supplied already. It applies only to users of Quaker Oats or Pettijohn's, or both. It means twice as much as this Dollar Offer meant two years ago. Get this Cooker next week if you are entitled to it. You owe that to yourself.

Double Cooker
Pure Aluminum
Extra Large and Heavy
Cereal Capacity 2 1/4 Qts.
A Lifetime Utensil

To Rightly Cook Two Famous Dishes

We want every user of Quaker Oats and Pettijohn's to cook these cereals rightly. Right cooking makes them doubly delightful. It keeps the flavor intact. It makes them easy to digest.

This Aluminum Cooker has been made to order to meet exact requirements. It is extra large, so little or much can be cooked in it. It is extra heavy, made to last a lifetime.

This Cooker will next week cost you only \$1, if you send us the trademarks we ask for. This is a costly offer. And we simply want to know, before sending the Cooker, that you are a Quaker Oats user.

This Offer One Week Only

Send us two trademarks (picture of Quaker) cut from packages of Quaker Oats. Also one trademark (picture of bear) cut from the front of one package of Pettijohn's. Or, if you prefer, send five trademarks from Quaker Oats alone. Send us \$1 with these trademarks and we will mail the Cooker by parcel post. Trademarks must be mailed next week. This offer applies to this vicinity only. Address

Quaker Oats Which Saves You 75%

Measured by food value, Quaker Oats costs one-fourth as much as the average mixed diet. So each dollar you spend for Quaker Oats saves an average of \$3. Oats stand supreme among grain foods, in nutrition and in flavor. They form a complete food, supplying every need. As an energy food their fame is proverbial.

Make this the chief breakfast dish. Meat and eggs cost five and six times as much. Also use Quaker Oats in bread and muffins, pancakes and cookies. No other food is so economical.

Use Quaker Oats because of the matchless flavor. It is made of queen grains only—just the big, plump, luscious oats. We get but 10 pounds from a bushel. Yet it costs you no extra price.

Pettijohn's The Laxative Luxury

Pettijohn's Breakfast Food is soft rolled wheat, hiding 25 per cent bran flakes. It is a savory dainty of which no one ever tires. And it supplies the needed bran. Bran is Nature's laxative. Everybody needs it. Most folks would feel better if they ate it every day.

Fine foods clog the system. Bran supplies the needed roughage. Every doctor, as you know, urges its use, to avoid the need of drugs.

Try it one week. Note the good spirits which result. Never again will you return to a branless diet.

Pettijohn's Flour is another bran dainty. That is 75 per cent white patent flour and 25 per cent bran flakes. Use like Graham flour in any recipe. With these two products every meal can include some bran-made dainty.

STOCK, CROP, ETC.

—The Kentucky fall racing season closed at Latonia, Saturday as a big success, financially and from a standpoint of interest. Every track in Kentucky made money and reports show that war did not effect wagering.

—The Kentucky Sales Company is now making arrangements for its annual breeder's sale, during the week beginning November 26. A large number of well-known breeders and owners will be contributors and Ken Walker said prospects were for a fine sale.

—At the public sale of stock and farming implements belonging to Mrs. Lula Johnson, held at her home on the Paris and Ruddles Mills pike, cows sold from \$65 to \$96; heifers \$35 to \$60; fat hogs, \$15.75 each; horses, \$65 to \$100. Farming implements sold well. There was a large crowd in attendance. Mrs. Johnson will move to Nelson county.

THE THANKSGIVING DINNER.

All Kentucky is whisperingly inquiring as to possibilities of having turkeys on the table for Thanksgiving dinner and truly the outlook is discouraging, but at least the chances for oysters, celery, sweet potatoes and cranberries are excellent, and the pumpkins were never better.
